Assignment number: T1FG17

List of web site's files

Here is the list of the web site's files.

Brief description for each file

1. CSS / style.css

This file layout the visuals and the design of the quiz, ensuring consistent format across buttons, forms, and leaderboard tables.

2. Data / leaderboard.txt and questions.txt

These text files will store the questions and leaderboard data corresponding to the quiz question bank and the saved history of player nicknames and scores.

3. exit.php

This page displays the final score and username, to use the session data into the leaderboard text file before destroying the session to reset the game.

4. index.php

Players will enter their nickname and choose a topic to initialize their session and start the quiz.

5. leaderboard.php

This file reads the saved player data from the text file and displays it in a table that can be sorted by name or highest score.

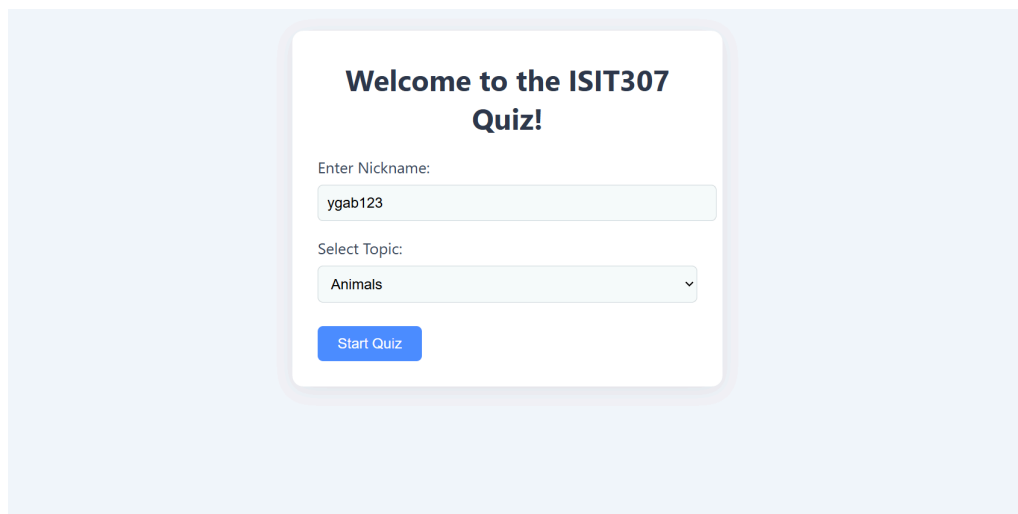

6. quiz_category.php

The main game page randomly selects four questions from the leaderboard.txt in the data folder and displays them using either text boxes for animals or radio buttons for environment.

7. Result.php

It will calculate the round points, update the cumulative score, and provide navigation to continue playing or view the leaderboard.

Screenshots of interface

A screenshot of a web interface for a quiz. The background is a light blue gradient. In the center, there is a white rounded rectangle with a subtle shadow. Inside this rectangle, the text "Welcome to the ISIT307 Quiz!" is displayed in a bold, dark blue font. Below this text, there are two input fields. The first is labeled "Enter Nickname:" and contains the text "ygab123". The second is labeled "Select Topic:" and is a dropdown menu with "Animals" selected. At the bottom of the white rectangle is a blue button with the text "Start Quiz" in white.

Description:

The player will enter their Nickname and select their topic of choice; Animal or Environment. Followed by them pressing the blue button "Start Quiz". To begin the quiz
